

Appendix 4 – The Sustainable Development Goals

The Global Goals, also known as the Sustainable Development Goals (SDGs), are a **universal plan of action for people and planet** to be achieved by the year 2030. These 17 goals aim to end poverty, combat climate change and ensure that we leave peaceful, just and equal societies for future generations. These goals are **universal** in nature, applying to developed and developing countries alike, and place sustainable development at their core.

Connecting the Local to the Global
